ECLIPSE CANOPY®

Commercial Solutions

Transform your business or workplace today with an Eclipse sail canopy. Full waterproofing and 100% UV resistance, makes the Eclipse a perfect solution to all year round weather protection.

Flexible polyester fabric is tensioned over a quality steel framework, generating a translucent canopy. Through natural light penetration, the sail membrane provides an aesthetic and long lasting weatherproof canopy. Increasing both lifestyle and living function, the Eclipse Canopy will enhance the ambience of your open air environment.

The Eclipse is designed and manufactured locally in accordance with Australian Standards. We offer a large range of Powder Coating and Galvanised finishes which can be integrated with the existing features of your premises.

The quality and vast experience of our design and installation team enables Shadeform to tailor a solution for your unique requirements.

APPLICATIONS

The Eclipse sail structure is ideal for covering external outdoor environments, including a wide range of areas.

- Schools
- Councils
- Shopping Centres
- Carports
- Hotels
- Pools
- Offices

BRILLIANT DESIGN

Consisting of a stretched translucent fabric, moulded over a steel frame, each Eclipse is custom designed to your needs. The benefit of a flexible fabric allows the Eclipse to span large distances with minimal support members. Combining the structural integrity of a veranda, and the aesthetics of a flexible sail membrane, the Eclipse offers the best of both form and function.

ADDED VALUE

By extending living and work spaces, the Eclipse adds considerable value to your workplace or business. Flexible integration with existing buildings creates an open environment, that also feels very protected. Optional guttering and downpipes can provide efficient water collection and dispersion. With the ability to fix outdoor blinds, folding arm awnings, and other external shade products to the frame, it is the perfect foundation for your outdoor living area.

TECHNOLOGY

High frequency welding technology bonds the computer cut panels together for the utmost strength and accuracy. Through the use of 3D modelling we can create a concept design, ensuring all manufacturing and installation is covered in detail.

LOCAL

All our sails are manufactured locally in our Torrens Park factory, creating a very affordable means of shade solutions. With over 20 years of experience operating out of Adelaide, we can provide expert advice tailoring a solution for your unique situation.

WARRANTY

Shadeform offer a 5 year warranty on the manufacture and installation of all products. All Fabrics have a 5-15 year warranty against UV breakdown, for fabric under tension. Approximate life span is 10-20 years.
