

ISSEY ROLLERFALL

WATERFALL WINDOW AWNING

Waterfall windows create a wonderful indoor living space with an open outdoor feel. But by having a glazed roof and facade, they often become too hot to use in summer.

The Issey Rollerfall has been conceived specifically to make these sunroom areas more liveable. Offering versatile track shapes to follow existing structures with multiple deflections, the graceful Rollerfall creates a room with temperate and visual comfort while allowing natural light and your spectacular panorama to be maintained. The motorised, retractable system gives you the power to control the climate by retracting or extending the shade as required, bringing summer cool and winter warmth.

The design possibilities of the Issey Rollerfall are endless with the ability to cleverly manage large spans without losing design integrity. Whether designing a new building or renovating an existing facade, Issey can innovatively design and technically craft a durable, effective system for a harmonious look or an outstanding feature.

ISSEY ROLLERFALL DESIGNER CLIMATE CONTROL AT THE TOUCH OF A BUTTON

ISSEY ROLLERFALL

WATERFALL WINDOW AWNING

APPLICATIONS

Windows with deflections can now be protected from heat while retaining their design integrity and the benefits of the view and light. Versatile track options allow for its application in a range of situations.

The top slope of the window needs to be at least 30 degrees for the system to operate effectively.

- Sunrooms
- Waterfall windows

SIZES

Width 800mm – 4000mm

Drop Up to 6000mm depending on width

Multiple system configurations are also possible

HEADBOX

Slimline powdercoated extruded aluminium box unobtrusively protects and prolongs the life of the system.

Screen Fabric

Acrylic Fabric

FABRIC

A wide choice of fabric is available to suit your unique situation:

- **Screen 86% / 90% / 92% / 93%** - When you have a beautiful view, selecting the Screen fabric will ensure the majority of heat, glare & UV is prevented while the view is maintained
- **Acrylic 99%** - A higher block out factor may be required in a west facing situation or when maximum heat control or privacy is essential

GUIDE OPTIONS

- **Tracks** - Powdercoated extruded aluminium 'H' tracks w 30mm x d 50mm

BOTTOM BAR

Holds tension on the screen

- **Tube** - Powdercoated extruded aluminium round tube 50mm - 65mm

OPERATION

The ability to retract the blinds gives you the power to control when and how much shade is required:

- **Motorised** - Somfy tubular motors that are hardwired to a switch or operated via remote control
- **Automatic Sensors** - For enhancement of lifestyle, choose an automatic sun & wind sensor that automatically extends or retracts the systems according to the day's conditions
- **BMS** - Easily integrates with Building Management Systems for convenient and versatile control

FRAMEWORK

Robust framework and components for durability and longevity

- **Colour of Frame** - Choice of over 100 colours from the Dulux Powdercoating Range
- **Material** - Powdercoated extruded aluminium framework
- **Nuts, Bolts & Fixings** - Marine grade stainless steel

INSTALLATION METHODS

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application

- **Face Fit**

WARRANTY

Issey confidently gives a 5-year warranty on all of its products.

Issey produces Australian designed and manufactured products that are reliable, contemporary and lifestyle enhancing. Our valuable advice is a result of numerous years of experience dealing with a multitude of Australian sun problems. Issey services begin from the design of the product and continue through to the maintenance of each sun shading system, providing professional and accountable service to every customer.

Please contact Issey to discuss your needs further or to arrange a measure and quote.
