## Outdoor Canopies for Schools & Communities

*Waterproof PVC fabric or  
95% commercial shadecloth*

Perfect for school assembly areas, soccer pitches, ovals, and other large play grounds – a large outdoor canopy provides excellent shade and UV protection. The design of each canopy is very flexible, including the ability to span large distances without any support structure, and custom made to suit any area.

- **Provide sun, UV, & all-weather protection**
- **Cooling outside areas & equipment**
  - **Promote Sun-smart culture**
  - **Protect against skin cancer**

## Bring your project to life with software

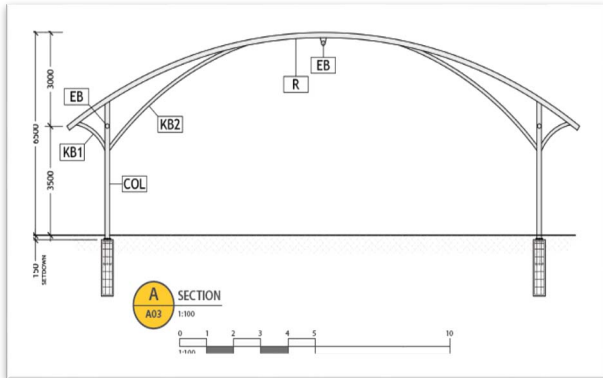

Including a whole list of in-house services such as sail-making, drafting, 3D modelling, and project management, Shadeform have the right capabilities to bring your unique project to life!

*Bordertown Primary*

## Custom made to suit all shapes and sizes

Flexible fabric canopies can be manufactured to suit a range of shapes and sizes. These include cone shaped, double cone, and other curved or straight line canopies. Large spans can also be used, up to 30m and beyond!

*Glenelg Golf Club*

## Tensile structures made to last!

By utilising stainless steel wires under tension, fabric canopies form strong robust shelters that are made to last. Commercial grade shadecloth and PVC fabrics are used for the canopy (with 10-15 years warranty) and a range of powder-coated or two-pack painted colours are available for the framework.
